

# SOLID WOODEN WORKTOPS

---

## for kitchen & bath

## A LOVE OF WOOD

Wood is one of nature's finest and most solid materials emitting life and individuality. No two pieces of wood are identical and its beauty has been unsurpassed by any synthetic substance.

Since 1965, Spekva has manufactured the finest quality wooden worktops for use in the homes of the most discerning customers throughout the world.

## SPEKVA'S MISSION

Spekva's mission is to supply individual and tailor-made solutions for your home.

Solutions based on superb craftsmanship tradition with the highest possible quality.

## ENVIRONMENTALLY FRIENDLY

Spekva is an environmentally responsible company and is certified by the Forest Stewardship Council (FSC). Spekva's FSC certification allows its products to be eligible for green points.

## CHOOSING A SPECIES

The main factor in choosing a wood species to incorporate into your design is simply color. All of our woods are hard enough to be used as functional pieces. Specifiers are thus free to choose the species by the color and grain structure that works best with the overall design of the project.

## HARDNESS

The list below shows the Janka number for each species in kilograms-force (kgf). The Janka method for testing hardness measures the force required to embed a steel ball halfway into the wood surface. The force used for this purpose is called the Janka hardness.

The higher the number – the harder the wood.

Sipo Mahogany

Walnut

Wood Type	Hardness	Wood Type
Ash	760	690 Oak
Beech	780	800 Ovangkol
Birch	490	300 Pine Knotty
Buginga	960	780 Red Beech
Cherry	530	670 Sipo Mahogany
Heart Ash	760	1000 Sucupira
Iroko	820	450 Teak
Khaya Mahogany	450	720 Walnut
Maple	830	870 Wenge
Merbau	780	900 Zebrano

## SPEKVA'S MOTTO

– *Made just for you* –

Spekva is the world's leading manufacturer of solid wooden worktops. Spekva offers a wide variety of products with flexible production. Each piece is individually treated and hand tailored to perfection.

## QUALITY MARK

Spekva is proud to have their name associated with their products and guarantees the highest available quality. The Spekva logo will be added to your piece by request.

## WARRANTY

Spekva stands behind their products by offering a five (5) year manufacturers warranty.

## SPEKVA AND THE ENVIRONMENT

Wood is one of the strongest raw materials of nature. Wood should only be worked on after years of experience.

SPEKVA®A/S has gained this experience after working with solid wooden worktops for the kitchen and bathroom industry for more than 40+ years.

SPEKVA®A/S takes pride in the standard of craftsmanship and the results speak for themselves.

At SPEKVA®A/S it is our clear ambition to keep on to the fondness for wood and therefore we have increased our focus on sustainable forestry.

SPEKVA®A/S has chosen to take the below position:

- SPEKVA®A/S is member of "WWF Skov 2002", which is the Danish department of The Global Forest and Trade Network (GFTN), where we work with a project to promote sustainable forestry and increased focus on FSC-marking.
- SPEKVA®A/S is as per 01.01.03 certified FSC-manufacturer and is therefore using FSC certified wood.
- SPEKVA®A/S is buying legally harvested wood.
- SPEKVA®A/S is buying wood from sustainable managed forests.

Kind Regards

SPEKVA®A/S
